...play different!

I am so excited! Creating a toy company has been an ambition of mine since forever, and finally it is here... in Spook toys.

At Spook, we wanted to breath life into new characters and stories... to rekindle those lost dreams, which made my childhood so special and above all I wanted to share that playful feeling with friends again.

Our range comprises of many of different stories, from every country and from baby through to junior, (or if you're like me you will like them at any age.) We have taken a lot of care to choose lovely materials and include surprising features to inspire every imagination.

There are things for babies, which are soft and comforting, to inspire giggles and smiles for those precious first experiences of play.

There are new and unique characters for young creative minds, where our designers have thought about personalities to stimulate creative play and interaction between young friends.

Everyone likes to give... I still have those toys that were special to me as a young girl, and we have created some extra special toys for all those important little ones, (You know who they are...) With that extra detail that makes something treasured forever...

To make it easy, we have created four categories to help you to find the right Spook toy for you... So you might be looking for a Spook Original, or you might just be a Spook Baby... You might be a Spook Creations fan or you might want to pamper someone with Spook Luxe...

The choice is ours...welcome to the wonderful world of Spook!
